### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Carson on 6/27/05.

#### **IN THE CLAIMS**

Change dependency of claims 19 and 20 to claim 17.

Change dependency of claim 30 to claim 27.

#### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:

Applicants' arguments in light of the amended claims are persuasive.

Particularly, amended claim 1 is now called for a feature regarding the dummy gate extends beyond at least one active area so as to form a connection with another dummy gate. Figure 13 in Chapman does not show two strips of dummy gate 130 connect to each other. Regions 114 are isolation regions, not part of the dummy gate 130. Claim 1 and its dependent claims are therefore allowed over prior art of record.

The amended claim 17 now includes a feature regarding a cavity formed in between the source and the drain and common to each FinFET, which feature is not

shown in Chapman because gate 116 completely fills the regions between fins 108 as shown in Figs 8 and 10.

The amended claim 27 and newly added claim 34 both have the limitation forming at least one dummy gate on at least one of the active areas and at least one gate on an active area other than the at least one of the active areas, which limitation is not disclosed nor suggested by the prior art of record

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trung Dang whose telephone number is 571-272-1857. The examiner can normally be reached on Mon-Friday 9:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri can be reached on 571-272-1855. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
